DILIP
Group
Since 1968

ABOUT US & PRODUCTS

DILIP Engg & Tech Products, a part of DILIP group of companies, formally wellknown as DILIP ENTERPRISES was established in the year 1968 by our Founder SHRI DILIP N SHAH. The vision of our group was always simple: to invest in products and services which can strongly build the future. This led to diversified growth across PAN INDIA with recognition in various govt companies in very early growth stages and becoming the only fastener company to attend as one of the top 100 vendors in first ever Indian Govt Vendor Meet Program. The journey continued with many developments in Indian GOVT & SEMI GOVT ORGANISATIONS, PUBLIC SECTOR, PRIVATE OEMs & MNCs with the support from our principal for identifying diff need based fastening and bolting solutions for critical applications to achieve accurate results.

DILIP Engg & Tech Products, with its technical competence, have developed many customized special products and offered various lifetime solutions, apart from being a leader for standard fasteners supplies in bulk, kitting, customised packaging & by various logistics solutions. Our personalized edge in value added services are always appreciated & gracefully compared to leading wholesale fastener & fixture technology companies worldwide, by our esteemed customers.

DILIP Engg & Tech Products, is strongly committed to constant upgradation of quality of fasteners with unexhausted interactions & unmatched services over the past 5 decades now. We will always remain thankful to our Founder SHRI DILIP N SHAH who believed that "The Customer is always Right" and laid the foundation of the Group for many generations to come and work to achieve their dreams in this Global Company.

NORD-LOCK®

WHEN SAFETY REALLY MATTERS

Washers for every bolted connection

NORD-LOCK Wedge-Locking Washers

Include standardized washers specialized for critical bolted connections, as well as customized solutions accounting for unique requirements and specifications.

COMBI NUTS

Simplify assembly, reduce the risk of errors, and optimize efficiency with Nord-Lock combi nuts.

NORD-LOCK WASHERS

Wedge-locking security for bolted joints exposed to extreme vibration and dynamic loads.

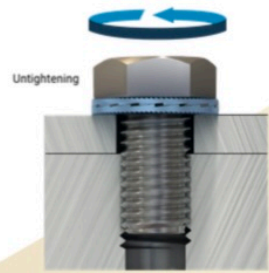

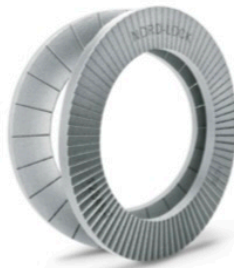

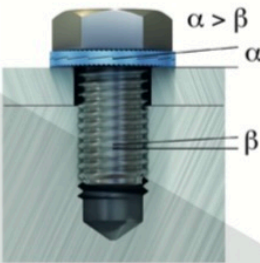

WHEEL NUTS

High clamping force that eliminates wheel loosening on heavy vehicles operating under extreme conditions.

NORD-LOCK X-Series

Maximum security for critical bolted joints exposed to spontaneous bolt loosening and slackening

BOLTIGHT®

Simple tools
super results

SUPERBOLT®

The fast track to
accurate tensioning

Expander®

Optimized pivot
pin assemblies
